House Releases 2017–19 Operating Budget Proposal

At noon today, House Budget-writers and Leaders gathered for a Press Conference to unveil their 2017–19 Operating Budget proposal. This afternoon, the House Appropriations Committee will hold a public hearing on the plan.

Given the short turnaround time, we are not able to provide a review of the budget yet. We will provide a full analysis tomorrow. For those of you who want more details immediately, the Legislative website has a series of resources. Included are: the full proposed budget bill, proposed substitute HB 1067; an overview of the proposal; and a complete agency detail.

All the materials are available at the [Legislative Evaluation and program committee](#) (LEAP).
